

November 10, 2004

Mr. James P. McCarthy
Director, Clerk Division
American Postal Workers Union, AFL-CIO
1300 L Street NW
Washington, DC 20005-3128

Dear Jim:

This to provide information you requested at the August 2 meeting concerning enhancements to the Advanced Facer Cancellor System (AFCS) and the Multiline Optical Character Reader (MLOCR) replacement effort.

Enclosed is a list of offices being affected by these efforts. The list notes offices

1. in which AFCSs are being upgraded,
2. in which MLOCRs are being replaced,
3. which are gaining Delivery Bar Code Sorter Input/Output Subsystems – Expanded Capability (DIOSS-EC) machines, and
4. which are gaining DIOSS kits.

Please note that it is anticipated that there will be some changes in this list.

In regards to an update on the timelines for the AFCS OCR, the Lafayette, Louisiana and Binghamton, New York pilot sites began operation in August. The First Article Test (FAT) began in Tampa on August 27. Phoenix is anticipated to begin the week of November 15 if the Tampa FAT is successful. Three sites in Pennsylvania will provide Lockheed Martin with AFCS exposure the week of January 15: Lehigh Valley, Southeastern, and Harrisburg. Field deployment is scheduled to begin the week of January 24 and end in July, 2005. A deployment schedule is under review and will be provided after review is completed and adjustments made.

Sincerely,

A handwritten signature in black ink, appearing to read "Patricia A. Heath".

Patricia A. Heath
Labor Relations Specialist
Collective Bargaining and Arbitration

Enclosure
