

Do Not Chain Seniors to Poorer Lives: Say NO To Chained CPI!

**Official
Petitions to the
United States
Congress**

To the attention of my Senators and Representative in Washington:

The chained CPI is a dangerous, stealth cut to Social Security benefits. It cuts more benefits with each passing year, and it hits today's Social Security beneficiaries. Cutting the Social Security cost of living adjustment (COLA) through the chained CPI would do real damage to seniors, veterans, and people with disabilities – present and future.

As your constituent, I urge you to PROTECT Social Security from benefit cuts and oppose the Chained CPI.
