

LETTER OF INTENT

The parties agree that no later than ninety (90) days from the effective date of the 1987 National Agreement, Management will issue the following clarifying instructions regarding Operations 110-129 and 180-189 of Regional Instruction 399.

The following provides additional guidance to determine the appropriate craft designation and assignment for distribution and separation activities for Operations Numbers 110-129 and 180-189 opening unit activities.

The current language in Regional Instruction 399 for Operations 110-129 and 180-189 contains instructions to assign mail handlers to "Cull/separate mail by type/ characteristics and make basic local/out-of-town splits to trays, hampers, gurneys, conveyers, nutting trucks, or other containers."

Additional instructions are contained in the document to assign clerks to "Distribution of outgoing IPP's, newspapers, rolls, letter of flat bundles, slugs, Special Delivery of Special Handling parcel post."

There has been some confusion as to the distinction between "basic local/out-of-town splits," which is assigned to mail handlers, and distribution, which is assigned to clerks.

The term basic local/out-of-town splits was intended to encompass that activity where initial separations are made by ZIP Code and city, state address information, to expedite subsequent distribution or dispatching and pouching operations. For example, the type of separations allowable would be for local city, local SCF, home state, SCFs and major cities within the home state, states for which the local office performs major city and sectional center separations in their pouching operations, groups of mixed states, where separation in the opening unit would expedite pouching operations. The allowable separations will be based on city, state, and 3- and 5-digit ZIP Code information.
