

Radio Script

Here's a crazy idea. The government wants to send our local mail _____ miles away to _____ to process it. _____ miles to _____. If you live in a zip code that starts with _____ this could slow down your first class mail service, which includes election mail ballots, bills, payments, personal and legal timely documents, etc.

Over _____ of the mail processed in _____ stays in our area. Why send it to _____ and then back here again? If you care about your local mail service Call or write your Congressional Members to stop the USPS from removing our First Class mail processing from _____

Sincerely,
