

Stop the SAVE Act!

The *Safeguard American Voter Eligibility Act (SAVE ACT)* represents a significant threat to our democracy. Passed by the House on February 11, the SAVE Act would make it significantly more difficult to register and vote in elections. Hallmarks of this legislation include:

- **Strict ID requirements** to prove citizenship for anyone registering to vote. Unless you are in the minority of Americans who have a passport, you would be required to provide documents such as your birth certificate and social security card. A Real ID does not establish citizenship.
- **Making it harder to vote by mail** by requiring a photocopy of your ID to accompany your ballot;
- Would require that anyone who **registers to vote by mail** would still need to **show proof of citizenship in person**;
- **Requires most voter registration updates to be made in person**, even something as simple as an address change;
- **Makes voter roll purges more likely** which will require many to re-register in person which will place additional burdens on those who have had name changes.

The Senate is facing increasing pressure from the White House to pass this legislation so it can go into effect before the upcoming midterm election.

Call your Senators today and tell them to stop this undemocratic power grab.
