

## Stop the SAVE America Act!

The *Safeguard American Voter Eligibility Act*, also known as the SAVE America Act, does nothing to “save” America. In fact, it represents a significant threat to our democracy. Passed by the House on February 11, the SAVE America Act (S. 1383) would make it significantly more difficult to register and vote in elections. If passed and signed into law, this bill would:

1. **Implement strict ID requirements** to prove citizenship for anyone registering to vote. Unless you are in the minority of Americans who have a passport, you would be required provide documentary proof of citizenship, such as a birth certificate. A REAL ID does not establish citizenship;
2. **Make it harder to vote by mail** by requiring a photocopy of your ID to accompany your ballot;
3. Mandate that anyone who **registers to vote by mail** would still need to **show proof of citizenship in person**;
4. **Require most voter registration updates to be made in person**, even something as simple as an address change;
5. **Cause more frequent voter roll purges**, which will require many to re-register in person, placing additional burdens on those who have had name changes.

The Senate is facing increasing pressure from the White House to pass this legislation so it can go into effect before the upcoming midterm elections.

Call your senators today at 844-402-1001 and tell them to stop this undemocratic power grab by voting NO on S. 1383, the SAVE America Act!
